

# Supporting Emotional Literacy

At Ashley School, we use the language of Zones of Regulation to discuss our emotions and the actions we can take to make good decisions, based on our feelings.

## The ZONES of Regulation™

<b>BLUE ZONE</b>	<b>GREEN ZONE</b>	<b>YELLOW ZONE</b>	<b>RED ZONE</b>
Sad Sick Tired Bored Moving Slowly	Happy Calm Feeling Okay Focused Relaxed	Frustrated Worried Silly/Wiggly Excited Loss of Some Control	Mad/Angry Terrified Elated/Ecstatic Devastated Out of Control

Children's needs are always changing and evolving and teachers should collate strategies that specifically support your child above the ordinarily available provision as part of the APDR cycle.

# Useful Contacts

Your child's teacher should be your first port of call if you have concerns about your child's learning and development. Arrange a meeting through the school office.

# Dyslexia FRIENDLY CLASSROOMS

## Suspected/Diagnosed Dyslexia

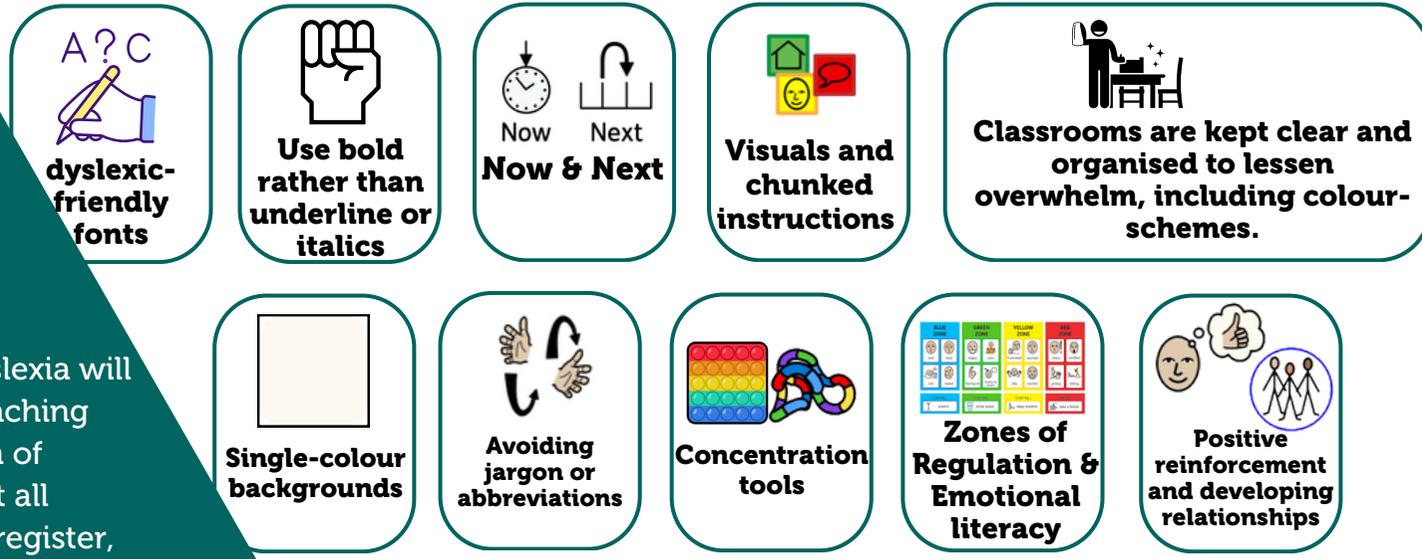

Children do not need a diagnosis to have their special educational needs recognised and supported in school. Support is on a needs-based model, rather than solely on diagnosis.

## Ordinarily Available Provision

As part of our inclusive approach, children with dyslexia will have their needs supported through quality first teaching and ordinarily available provision. See our selection of criteria for a dyslexia-friendly classroom (right). Not all children with dyslexia will need to be on the SEND register, but those whose needs require support above the OAP, will have a SEND Support Plan (SSP) and further strategies documented. This is done in collaboration with families, teachers and SENCO.

## Further Support

If your child needs targeted, intensive support, either internally or from external sources, then a Send Support Plan (SSP) is written and they are placed on the SEN register. The inclusion section of our website shares more about the process identifying and supporting needs.
